**incorrect**

this is not Scrum nor a Scrum Team, it is a mini-waterfall of single-function groups with handoff and WIP queues

a 2- or 4-week iteration →

analysts → WIP queue → designers/ architects → programmers → testers

repeat in another timeboxed iteration

correct

a 2- or 4-week iteration →

Scrum Team

+ SM

cross-functional team does all work (architecture, analysis, interaction design, internal design, programming, test, …) without handoff
